MY ROLE IN MY ENHANCED RECOVERY...

“I didn’t know I had a role” says Nick (patient)

“I had always thought my role before going into hospital before an operation was to give myself up to other people and to shut off my mind to what is happening to me... if I knew what I know now, I would have taken more of a role in my recovery.”
HEALTHY STEPS TO IMPROVE MY RECOVERY BEFORE MY OPERATION

FOOD & DRINK
Eat well, your body needs fuel to repair.

SLEEP, REST & PLAY
Staying physically active before your operation will help you get better, faster. Try to relax. Try not to worry and get together with family and friends.

SMOKING & ALCOHOL
If you do drink or smoke, use this as an opportunity to stop or cut down. This will help your recovery and reduce the risk of complications.

PRACTICAL STEPS TO SUPPORT MY RECOVERY

Set up your plans for going home before you come into hospital. The time you will be in hospital is not long.

This information might be useful to talk through with a friend, carer or family member to ensure that you have the practical support in place to support your recovery.

MY TO DO LIST

☐ I KNOW MY DATE FOR GOING HOME

☐ I HAVE TOLD THE RIGHT PEOPLE WHERE I WILL BE

☐ I HAVE ARRANGED MY TRANSPORT FOR GETTING THERE AND BACK

☐ I HAVE PACKED A SMALL BAG WITH THE RIGHT STUFF (e.g. CLOTHES, READING MATERIAL)

☐ I HAVE CHECKED I HAVE THE RIGHT EQUIPMENT AND SUPPORT AT HOME

☐ WHAT ELSE DO I NEED TO ASK?

DON’T BE AFRAID, IF NOT SURE, ASK!

HEALTHY STEPS TO IMPROVE MY RECOVERY WHILST STILL IN HOSPITAL

I NEED TO...

• Take an active part in my recovery - follow the advice and instructions of my clinical team
• Be positive about my recovery
• Start to eat and drink - my body needs fuel to repair (don’t be surprised to find a cup of tea and a snack box available in the recovery room straight after your operation)
• Go easy, this is exercise to help with my recovery not to add more fatigue. I need to keep practicing moving my arms, legs, doing my exercises, walking, before and after my operation
• Set myself a daily goal... little steps go a long way

EXAMPLE OF GOALS YOU MIGHT SET

<table>
<thead>
<tr>
<th>MY GOALS</th>
<th>DAY ONE</th>
<th>DAY TWO</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAY OF SURGERY</td>
<td>SIT OUT</td>
<td>WALK</td>
</tr>
<tr>
<td>DRINK</td>
<td>EAT</td>
<td>SHOWER</td>
</tr>
</tbody>
</table>

DONT BE AFRAID TO ASK QUESTIONS AND FOR INFORMATION TO BE REPEATED. IF YOU ARE NOT SURE... SAY SO

BUT REMEMBER, WE ARE ALL INDIVIDUALS, DON’T WORRY IF YOU DON’T REACH YOUR GOAL EVERY DAY... A FEW STEPS ALSO MAKE A DIFFERENCE
