No lockers, staff room Frailty Unit / SF3, no lockers

Staff room on West Ham ward, no lockers.

Consulting rooms on Michelham ward at EDGH not being used at present as a night shift room. Still accessed via a passcode? Prof Patel contacted for his input.  
18.07.19 - Response from Prof Patel - Rest facilities he is confirming back next week.

I only recently (about a month ago) found out that we have a mess. I have never been there so have no idea what facilities it has. Have not seen any lockers anywhere.

There is no allocated rest place for doctors. When I started Stan told us a room in Michelam was available which I used once. The second time I went there I was unpleasantly told by the staff there not to use it. I never went back. This was several months ago. I have never been given lockers as well.
