This dietary plan is only intended for short term use for **5 days** prior to a procedure requiring bowel preparation. Following this plan longer term is likely to cause nutrient deficiency and should only be carried out with the support of a Registered Dietitian.

Once bowel preparation has commenced clear fluids should be drunk, clear fluids are liquids you can see through- water, rehydration drinks, clear fruit squash, clear broth, weak tea - **NO MILK**

Excellent prep

• Follow your doctor's directions to ensure your colon is as clean as possible

Good prep

Fair prep

Poor prep

• A fair or poor prep can leave the colon dirty—making it difficult for your doctor to spot abnormal growths^{4,5}

Flat lesion

Depressed lesion

Polyp

Elevated lesion

If your bowel preparation is poor as shown above and your endoscopists is unable to exclude abnormalities, you will likely need a repeat procedure. For further advice contact: **Conquest Endoscopy Department-** 03001315297 / **EDGH Endoscopy Department-** 03001314595
