System definitions:

Maternity – It is the specialist maternity system in use for maternity care.

Radiology Information System (RIS) – It is the core system for the electronic management of imaging departments. Often used in conjunction with PACS and VNAs, major functions of the RIS can include patient scheduling, resource management, examination performance tracking, reporting, results distribution, and procedure billing.

If I can be of any further assistance, please do not hesitate to contact me.

Should you be dissatisfied with the Trust's response to your request, please write to the Freedom of Information Department (esh-tr.foi@nhs.net), quoting the above reference.

Yours sincerely
