## KNOWLEDGE AND LIBRARY SERVICES BULLETIN

Issue 10 // December-January

### Subscriptions update

As the year ends, we have reviewed the usage of electronic resources. We have had to cancel some titles and have added a few more resources in order to bring value for money to the Trust. The notable changes are as follows:

#### **Titles or resources cancelled:**

- ClinicalKey (subscription will end on 31st December 2023)
- New England Journal of Medicine (print version)

#### **Titles or resources added or continued:**

- BMJ Clinical edition (print version)
- Practising Midwife online plus print
- Elsevier eJournals (selected titles - *Archives of Physical Medicine and Rehabilitation*, *The Lancet*, *Medicine*, *Journal of Hospital Infection*, *Journal of Shoulder and Elbow Surgery*, *Surgery for Obesity and Related Diseases*, *Physiotherapy*, *BJA Education*)
- [Mark Allen Health Complete collection](#)
- CINAHL Ultimate (Now available via [NHS Knowledge and Library Hub](#))
- Proquest eBooks Central
- NEWT Guidelines (site/departmental access)
- [UpToDate](#) (Following consultation with Directors, it was decided to extend the subscription to UpToDate until the end of December 2024)

### **Access extended until December 2024**

#### **UpToDate Availability - Notification of Changes**

The current three-year contract with Wolters Kluwer, providers of UpToDate clinical decision support tool, had been due to expire at the end of December. We have negotiated for an additional year extension to the contract, thus access will continue until the end of December 2024.

You may have received notifications directly from Wolters Kluwer or UpToDate advising you to download your CME credits. Please ignore that instruction as it was the supplier's marketing approach.

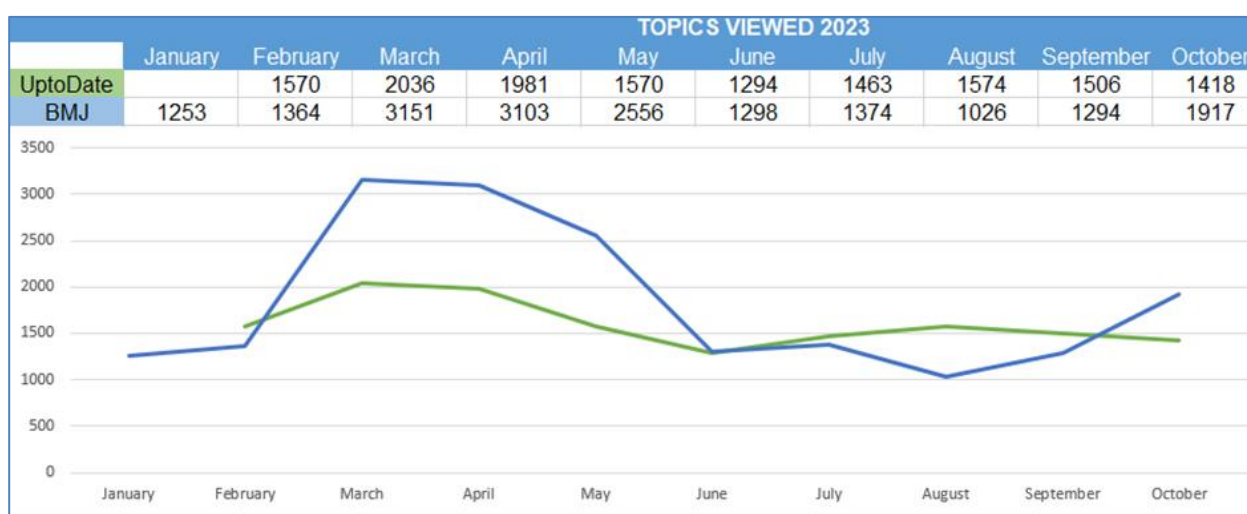

Meanwhile, the Knowledge and Library Services are promoting alternative clinical decision support tools. NHS England have made BMJ Best Practice available nationally. BMJ Best Practice have improved significantly since 2020 and now includes a comorbidities management tool, patient

information, calculators, videos and is more relevant to the UK setting on drug recommendations. Since August 2022, both UpToDate and BMJ Best Practice have demonstrated high usage.

Clinicians are encouraged to try the following alternative sources or tools that are easily available:

- [BMJ Best Practice](#) (via Trust computers or with NHS Open Athens Login)
- [NICE Guidelines](#)
- [TRIP Pro Database](#) (requires NHS Open Athens login)
- [Clinical Knowledge Summaries](#)
- [NHS Knowledge and Library Hub](#) (via Trust computers or with NHS Open Athens Login)
- [Essential Evidence Plus](#) (set a trial or personal subscription)
- Resources or guidelines from Royal Colleges
- [Medscape](#) (register an individual account free)

### Usage comparison based on topic views:

### Access BMJ Best Practice on a desktop via the Extranet:
