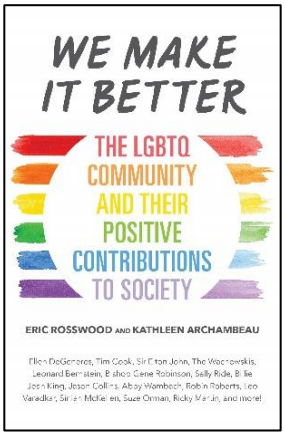
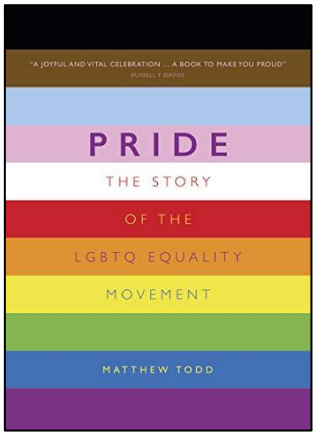
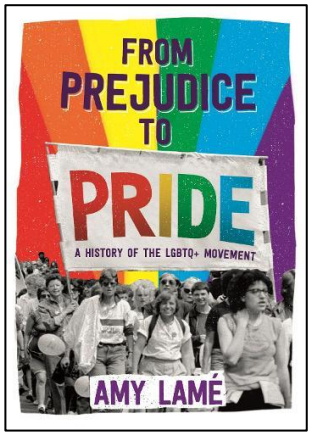
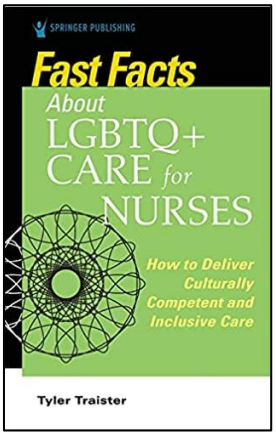
LGBT+ History Month 2023

February is LGBT+ History Month! Check out the following books available from the library. Click on the images below to reserve via the library catalogue (OPAC)!









LGBT History Month

LGBT History Month is an annual celebration held in February which observes lesbian, gay, bisexual and transgender history, and the history of the gay rights and related civil rights movements. Here at ESHT we pride ourselves in creating a workplace which is diverse, compassionate and promotes equal opportunities for all our people. LGBT History Month provides the opportunity to learn about the barriers the LGBT community face within the workplace, help improve their experiences and have fun along the way.

The LGBTQI+ network will be hosting a range of events throughout February to celebrate. Keep an eye on the staff extranet and the network page for further information. You can also join the LGBTQI+ network to share your own or learn about other people's experiences.

Have you got any other ideas of things you would like to see or learn about? Let the team know by emailing esht.workforceinclusion@nhs.net
