ENVIRONMENTAL INFORMATION REGULATIONS ACT

I am responding to your request for information under the Environmental Information Regulations Act. The answers to your specific questions are as follows:

I would like to request the following:

- 1) A list of all -cides used by the Trust. This is inclusive of, but not limited to: any and all avicides, biocides, fungicides, herbicides, insecticides, pesticides, and rodenticides.**

[Please see the attached document – ‘EIR 25-319 Cide use’.](#)

- 2) The annual cost and volume of purchase of each of these -cides, broken down by -cide, from January 2014 to December 2024. Please list this on a spreadsheet (CSV), broken down by:**

- a) **-Cide**
- b) **Product Name**
- c) **Volume Purchased**
- d) **Price Paid**
- e) **Purchase Date**

[Please see the attached document – ‘EIR 25-319 Cide use’](#) and note that we are applying Regulation 12(5)(e) to the price paid.

[This is formal notice that under Regulation 12\(5\)\(e\) of the EIR that East Sussex Healthcare NHS Trust is unable to release the requested information in respect of price paid, as it would adversely affect the commercial interests of the Trust and the suppliers.](#)

[This regulation is subject to the public interest test. This means that not only does the information have to prejudice one of the purposes listed, but before the information can be withheld, the public interest in preventing that prejudice must outweigh the public interest in disclosure.](#)

[In this instance, we consider that the public interest in withholding the information is greater than the public interest in disclosing the information.](#)

Please note the following:

- We have only provided data for orders which have identifiable codes.
- There will be missing data for orders raised without using specific codes for which the information is not available.

3) A list of each of these -cides' use, by volume. Through this I am trying to ascertain whether the purchased volume is matched by the used volume, so if there is a record of expired or unused -cides too, that would be ideal. Please add this to the above CSV as an additional column, also on an annual basis over the same time period. Please list volume in either litres or kilograms, whichever is more appropriate.

The Trust does not record information requested above.

4) Only if available and easily accessible, the location and purpose of each specific -cide's use. For the former, this may be classified by: location grouping, address, coordinate, or otherwise.

- For all of the above, please only list -cide use for facilities not managed by NHS Property Services. Where relevant, also include the -cide use of defunct Trusts now integrated into the current Trust.
- If any of the individual pieces of information listed above are not available but others are, like cost and volume, then please signal this while responding with the other available information. Additionally, if records are only available for a time period less than that specified above, please provide these instead of rejecting the request as a whole.

Please see the attached document – 'EIR 25-319 Cide use' for information that is available, including the department locations. The data provided is for the period 1st April 2017 to 31st December 2024. Information prior to that date is either not available or not easily accessible.

If I can be of any further assistance, please do not hesitate to contact me.

Should you be dissatisfied with the Trust's response to your request, you have the right to request an internal review. Please write to the Freedom of Information Department (esh-tr.foi@nhs.net), quoting the above reference, within 40 working days. The Trust is not obliged to accept an internal review after this date.

Should you still be dissatisfied with your EIR request, you have the right of complaint to the Information Commissioner at the following address:

The Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire SK9 5AF

Telephone: 0303 123 1113

Yours sincerely
