## FREEDOM OF INFORMATION ACT

I am responding to your request for information under the Freedom of Information Act. The answers to your specific questions are as follows:

**Under the Freedom of Information Act 2000, I would like to request the following information for each hospital site within your trust**

**1. Regarding your Holter monitor devices:**

**a. What is the approximate cost per Holter monitor and associated service or maintenance fees?**

Whilst the Trust holds the information requested, it is applying a Section 43(2) exemption in relation to this part of the request as the release of the information is likely to prejudice its commercial interests.

In applying the exemption consideration has been given to the public interest in enabling scrutiny of public sector decision making and the general public interest in accountability and transparency.

We have concluded that sharing commercial information would disadvantage the incumbent supplier against their competitors. The information would provide competitors with the suppliers pricing, which would result in these suppliers obtaining a competitive advantage. This would distort the marketplace and result in the Trust not obtaining best value.

In this instance, we consider that the public interest in withholding the information is greater than the public interest in disclosing the information.
