Website: www.esht.nhs.uk

Further to your recent request for information made under the Freedom of Information Act (FOIA) 2000, I now set out our answers to your specific questions, and any clarifications sought and provided, as follows:

Please can you provide the self-pay prices for all bulleted procedures below from your Private Patient Unit Sussex Premier Health?

Please see the following and note that many of Sussex Premier Health charges are not fixed prices and therefore cannot be supplied as definitive figures.

Sussex Premier Health prices vary according to individual patient needs, and may be affected by factors such as:

- Length of stay (e.g., an additional night if clinically required or requested)
- Additional clinical input (e.g., physiotherapy sessions, imaging, or tests)
- Level of care (e.g., if a patient requires HDU support)
- Package vs pay as you go choices (some patients choose individual itemised billing rather than a package price)

For these reasons, prices can only ever be provided as indicative, not absolute. A confirmed price can only be generated following an individual clinical assessment, after which a personalised quotation is issued directly to the patient.

Please note that Consultants working at Sussex Premier Health are independent private practitioners, therefore we do not hold the information in respect of Consultant Fees.

Anyone seeking consultant fee information would need to contact the consultants individually, as these charges are set and managed by the consultants themselves.

Please see the following for all pricing information that we hold but note that many prices cannot be fixed due to individual clinical variation, Consultant fees are not set by Sussex Premier Health and patients requiring exact costs must request a personalised quotation.

1. Consultations & Appointments

· Initial consultation	-
· Cosmetic consultation	£150-£250
· ENT consultation	£195-£220
· Ophthalmology consultation	-
· GP appointment	£110-£120
