Further to your recent request for information made under the Freedom of Information Act (FOIA) 2000, I now set out our answers to your specific questions, and any clarifications sought and provided, as follows:

**Please could you share the percentage rate of compliance for daily temperature checks of mortuary fridges used to store foetal remains for the period January 1, 2020 to December 31, 2025.**

- **Could this data please be divided by care provider/hospital and month.**

Fridge temperatures were not recorded electronically until June 2022. Prior to this date, temperature records were maintained in hard copy format and subsequently scanned and saved to a hard drive, as shown in the attached spreadsheet.

Web-based 24-hour temperature monitoring was introduced in January 2023. Accordingly, the attached information covers the period from 2023 to 2025, which is the information currently held.

Please note that, although fridge temperature checks were carried out before the implementation of digital monitoring, no copies of those records have been retained.

I trust this information is helpful in its detail or explanation however, if you are dissatisfied with the response, then you have the right to request an internal review. If you wish to seek an internal review, please write to the Freedom of Information Team at [esh-tr.foi@nhs.net](mailto:esh-tr.foi@nhs.net) quoting the above FOI reference number, within 40 working days. Please note the Trust is not obliged to accept a request for an internal review after this time period.

Yours faithfully
