Eastbourne District General Hospital

Kings Drive
Eastbourne
East Sussex
BN21 2UD

Tel: 0300 131 4500
Website: www.esht.nhs.uk

Further to your recent request for information made under the Freedom of Information Act (FOIA) 2000, I now set out our answers to your specific questions, and any clarifications sought and provided, as follows:

I would like to know how many of the following fractures were treated and fixed in the past 12 months using a plate

Hand fractures
Scaphoid fractures
Distal radius fractures
Distal ulna fractures
Olecranon fractures
Distal humerus fractures
Proximal humerus fractures
Clavicle fractures
Ankle fractures

Please see the attached document - 'FOI 26-675 - Fractures and procedures' for the number of fractures treated within East Sussex Healthcare NHS Trust (ESHT), for the period requested.

I would also like to know how many radial head fractures were treated using headless compression screws and/or a radial head replacement prosthesis.

There were no radial head fractures treated within ESHT, during the period requested.

I trust this information is helpful in its detail or explanation however, if you are dissatisfied with the response, then you have the right to request an internal review. If you wish to seek an internal review, please write to the Freedom of Information Team at esh-tr.foi@nhs.net quoting the above FOI reference number, within 40 working days. Please note the Trust is not obliged to accept a request for an internal review after this time period.

Yours faithfully

Freedom of Information (FOI) Team
East Sussex Healthcare NHS Trust
